First general evaluation:

- ✚ The proposed program was fully implemented and it was highly praised by all the participants involved.
- ✚ Evaluation from Dr. Fatima Claudino of the CNU: "The works presented by the students were acts of citizenship, they revealed their creativity and critical way of thinking (...)."
She thanked everyone and recognized the importance of these Meetings, which take place at international level and whose main goals are to raise awareness and seek out for solutions concerning the topics that have been discussed.
- ✚ The activities proposed during the Meeting: cultural activities, study visit to the *Oceanarium*, Jerónimos Monastery and Tower of Belém, the methodology used in the presentation and discussion of the works accomplished by the students, the work done in small groups was very praised and evaluated as very good.
- ✚ The logistics: (meals, accommodation, transportation) was rated as very good.
- ✚ The interpersonal relationships among all students, teachers, participants and organizers were considered excellent.
- ✚ All the teachers who took part in the XXI Meeting, namely the UNESCO PEA in Galicia, Dr. Maria Luisa Marquez, proposed that the ESSB should be recognized by the CNU as a school that promotes the sharing of knowledge, skills and good practices, responding to the contemporary global challenges advocated by Unesco (A planet, an ocean) which was deeply connected to the theme of the 21st International Meeting of Young Scientists of Unesco Associated Schools.
